GM-HK-13 Hockey scoreboard with LED displays and wireless control. The frame is constructed from continuously welded aluminum box tubing which receives a high quality baked on powder coat finish. It has 9 inch tall LED digits for clock, score, shots, period, player number, and penalty. Game time counts down or can count up by special order. Maximum time is 59 minutes and 59 seconds. May display time of day when game is over. Player number can be set up to 99. Penalty value is preset to 2 minutes, but may be changed by the operator and is activated with one button for each player. Display illumination can be adjusted to three levels. A loud horn with adjustable duration is standard. The last minute of game time displays tenths of seconds. Scores up to 99. LED displays last up to 100,000 hours. The included wireless controller means that there are no cables to worry about. Just plug it in and play. It uses less than 6 amperes of current at 120 volts AC. Size is 40 inches tall by 144 inches wide by 2 inches deep. Weight is approximately 130 pounds.
